

## Technical Courses

### About our Technical Courses:

1. Our Technical courses aim to equip students with the knowledge and skills needed to work in the construction, transportation, mechanical and electrical industries.
2. We pride ourselves on giving our students only the best service. We walk with you every step of the way to help you complete your course successfully.
3. Our study material is easy to follow and understand, and our tutors are just a phone call away should you get stuck.

The technical courses offered by Gautech Training Institute are related to the engineering industry, but are less comprehensive than the engineering degrees offered by universities.

### Course options:

Welding CO1 & CO2	Course Price R6000
Boiler Making	Course Price R5000
Fitting & Turning	Course Price R7000
Motor Mechanic	Course Price R12000
Plumbing	Course Price R7000
Litho printing	Course Price R5000
Computer and Accessories Mechanics	Course Price R8000
Carpentry	Course Price R10000
